New product: Data-Pack, digital caliper and wireless emitter

In the current context of Industry 4.0, the connectivity of instruments has become an essential feature and opens up powerful possibilities (reports, statistical analysis, etc.). With the Bluetooth® transmitter provided along with the TESA calipers, data acquisition has never been easier!

Universal dial calipers

- Perfect operation of the slider for a silky-smooth operation
- Robust construction with housing and protection of the gear mechanism
- Integrated shockproof system guaranteeing longevity and stability of results over time
- Good reading with big high-contrast dial

Dial gauge not included

TESA-HITE 1D height gauge

- Big colour screen for better reading in dimly lit surroundings
- Long battery life (60h) to avoid too frequent recharging
- Quick access to the first measurement from start up (<4s) for a significant time saving
- Free SCS certificate provided to avoid additional costs for re-calibration at the initial purchase

INTERAPID 312 analogue lever-type dial test indicators

- Large measuring range
- Robust construction
- Mountings through dovetail clamping and a Ø 4 mm swivelling shank
- Bidirectional measurement
- Including a revolution counter for a safe reading
- Always the same rotation direction of the pointer
